

3 December 1963

SUBJECT: Lee Harvey OSWALD

TEST: Lee Harvey OSWALD  
 a FBI Requests Polygraph of ALVARADO

SEK: 14

Mr. Papich stated that the Bureau would like to have him subjected to a polygraph examination by this Agency and would appreciate receiving word as soon as possible as to whether we will handle the matter since if we will not handle it the FBI will have to determine what other steps might be taken to see that this is done. I advised Mr. Papich that I would check into the matter, that I did not know whether we had available at this time a polygraph operator who could properly handle this matter but in any event I would let him know whether this can be done.
